

TOP TEN REASONS TO HIRE A WEDDING VIDEOGRAPHER

1. A LIFE-LIKE MEMORY OF YOUR WEDDING

Your wedding day will probably go by in a flash – but having a wedding videographer capture your celebration from before your ceremony to your evening reception will remind you of your best day ever for many years to come.

2. SEE THINGS YOU WOULDN'T HAVE SEEN OTHERWISE

You can't possibly see how your guests will react to certain parts of your day – but on film, you'll be able to look back at everyone and see things that you may not have seen if you didn't hire a wedding videographer.

3. CAPTURE FRIENDS AND FAMILY IN THAT STAGE OF LIFE

Whether you're inviting grandparents, aunts, uncles, cousins, small children, teenagers or babies to your wedding, it will be amazing to look back at your wedding video in years to come, to see how people have changed from then to now. Having that lifetime memory of grandparents, for example, could be priceless.

4. YOUR WEDDING VIDEOGRAPHER CAN GET CREATIVE

A wedding video these days isn't quite the same as you may have seen in the 80s. Today's Wedding Videographers are experts when it comes to using top of the range equipment, music and digital creativity to turn your cinematic wedding video into a memory that you'll want to watch over and over again in the future.

5. SHARE YOUR WEDDING VIDEO ON SOCIAL MEDIA

Aside from watching your wedding video on repeat at home – your wedding videographer can create a shorter version for you to share with your friends on social media.

6. A KEEPSAKE FOR YOUR FUTURE CHILDREN

If you plan on having children in the future, or if you already have them before you get married, having a recorded memory of your wedding day will be something for them to treasure and watch back in years to come.

7. RE-LIVE YOUR PERFECT DAY AGAIN...AND AGAIN...AND AGAIN...

When your wedding is over, we're pretty sure that you'll wish that you could re-live that day over and over again. As a bride, you'll never wear your wedding dress again. You've spent countless hours planning, preparing, anticipating and spending money to make your big day perfect. You deserve to have the best way to remember it. With a wedding video, all those incredible emotions and memories will come flooding back.

8. CAPTURING THE REAL EMOTION

There are numerous parts of a wedding day when emotions can run high; from the father of the bride seeing his daughter all dressed up, to walking down the aisle and more than likely, the speeches during the evening banquet. Having these emotions captured on film will be forever sentimental to look back on.

9. HARD FOR ALL RELATIVES AND FRIENDS TO ATTEND THE WEDDING

Sometimes it's just too hard to get everyone you love to your wedding, especially if they're overseas. It's a common reason why people would like to have their big day on film.

10. NO REGRETS

You won't want to get to the day after your wedding and then realize that you wish you would have hired a wedding videographer! It's always best to exhaust options during your planning if it is something that you are considering. There is a reason the film industry is worth billions of dollars. It's because films move people. Your favorite film can inspire you, provoke you or move you to tears. Why not capture your wedding this way?
